## **What is September**

September, ninth month of the Gregorian calendar. Its name is derived from septem, Latin for “seven,” an indication of its position in the early Roman calendar. Britannica, The Editors of Encyclopaedia. "September". Encyclopedia Britannica, 9 Jan. 2024, <https://www.britannica.com/topic/September>. Accessed 25 August 2024.

“Once you have found out what you love to do, there is only one goal. How can you be the best in the world at it? It doesn’t matter if you are a filing clerk, an athlete, an accountant or a bartender. All that matters is that you do whatever you can to be the best.” — Mark Cuban
